

**THE DAILY APPEAL**

SATURDAY..... SEPTEMBER 4, 1858.

**ALARM.**—The alarm of fire at 12 o'clock last night, was false.

**McKEEVER'S** of Adams Express Company, has no means for New York papers to advance of the mail.

**NO. 1 LICENSE.**—J. H. Hawley was found by Van Cuylenburg, engaged in passing without a license, for which he received him six dollars.

**RECORDS' COURT.**—Ex. Hill officiated for Ex. East yesterday morning, but the last gentleman professed in his court last evening, that he is far from well.

**DESTRUCTION.**—WILLIAM GOODE was yesterday tried at the Recorder's Court for obstructing an alley; other obstructors had better take notice.

**THE ORGAN.**—This is the name of a new spiritual saloon, kept by STEVENSON, on Bank Alley, just below Madison street. The name is as original as the spirit of the Atlantic cable, for which we leider our thanks.

**OPHTHALMOLOGIST.**—We had the pleasure

last evening of observing the effects of the beautiful new instrument, the ophthalmoscope, at the Eye Infirmary of Dr. Johnson, near the Commercial Hotel. The ophthalmoscope is well made, and convenient to use as the doctor handles and converses a book as the doctor travels cannot be more agreeably seated. Visitors to the St. Louis Fair will remember that the doctor is the boat to take for that occasion.

The Langley, Capt. Worman, in the Napoleon boat to-day, carries the United States mail, and the passengers on board can rely on him in time and on every occasion from the obliging officers.

We have received through the house of

W. H. COOK, 207 Broadway, N. Y., CANICE, a New York specimen of the Atlantic cable,

which, we hope, will be here at any time within legal walls.

**A CROWN.**—One of the city papers recently asserted that travelers were taking other routes and avoiding Memphis. So far is this from being the case, that the last evening's train, due at a quarter to five o'clock, did not arrive until between eight and nine, owing to the immense crowd of passengers on the cars.

**DOLL.**—The only smart thing in town yesterday, was the small fall of rain in the morning, the consequence of which was such a heavy downpour in the afternoon that everything was dull; it rained over there "few and between," and entirely destroyed some "spicy" attribute.

**FARTHER DOING.**—E. BUCKLEY was in a house with his "out-out," and went ahead a little too fast, for which he had to pay a fine at the Recorder's office. ROBIN COOK contrived yesterday to whip out of the horses driving his hack, a speed not allowed in the city streets; for this he was compelled to pay six dollars.

**THE RICHMOND DISPATCH.**—In this city reaches the news of your birth. The York Tribune understands that Lord Derby, in answer to the representation of the Directors of the Atlantic Telegraphic Company, has signed a convention with the British Government to grant the Charter of the Company, so as to place its organization, &c., upon a footing of absolute equality as regards the British and American Governments.

**THEATRICAL.**—We observe that on Monday next, CAINE's COMPANY commences a season of six nights at Huntsville, with the play "The Devil to Pay." The company will be in the theater for a few days, after leaving the impression that we have had no yellow fever in Memphis since 1855. If Miss Anna VALE is dead, we have heard of her certainly did not die here. Memphis is very healthy—physician friend says, "distrust yellow fever" at this time.

**MEMPHIS AND VICKSBURG.**—The London Evening Herald says:

"The direction of the Academy of Music at New York, best upon their countrymen in an opportunity of seeing and hearing the great American Opera Company (Dame Canaries) a most brilliant engagement. The offer will be made in the middle of next month will witness the departure of this charming dramatic catastrophe for the United States."

**THE NEW YORK ENGLISH OPERA TOUR.**—The New York Times' Bureau of Tuesday, pays the Hodson-Durand Opera, the following compliment:

"As we expected, the opera troupe drew a full, though not crowded, house. The music was good, and the vocal parts, though Durand's voice was as thin as ever, Holden's was clear and strong, and we were pleased with the voices, but were mistaken. In action, the entire troupe, very efficient, and the scenes were well done, and the costumes and lighting were excellent. This evening they will produce La Sonambula."

**THE WHALEMATES.**—We were surprised to see that a yesterday spoke of our excellent whalemaster as being deficient in courtesy to the press; we had not the pleasure of Mr. Wolf's acquaintance until after his election to office, but since our introduction to him, we have been greatly gratified in his giving us every facility in his power, and we believe the press generally will say the same.

**THE TIDE ROLLING BACK.**—We observe in the city a number of strangers who are returning to their Southern homes from the Springs and mountains of Virginia, Georgia and Alabama. We trust that they may find Memphis a pleasant resting place until they feel it safe to return home again.

**Mr. C. G. GAHEY.**—He will be open with a company, affording pleasant and instructive entertainment. In the meantime, they might spend an hour or two very agreeably at A. H. Steene's, on Washington street.

**CHEER.**—J. J. Jones, on Thursday hammered an Irishman's head with a brick until the man's shirt was dyed with blood. He was yesterday taken before Ex. Hill to answer for the assault, when he was fined three dollars; the man, however, was released.

**WINE.**—The wine of the day, which has been entitled to a name by a civilized State, will be open to conjecture, and it will be a premium on conjugal indulgence. It is to be hoped that the young man, the innocent, and grada's divorce to both parties will be the result of all the virtue in the State.—Albany Argus.

**Wines, Brandies, Rums, BLACK TEAS, &c.**
